EXPERIENCE SUMMARY

Software Developer with more than 4 years and 7 months of experience in Java application development with Spring framework and Spring reactive framework in the industry of telecom and e-commerce.

WORK EXPERIENCE

Software Engineer

Nov 2021 – Sep 2023

CGI Hyderabad, IN

- Developed batch jobs to automate several processes in the company's ERP tool which improved the business value of the customer.
- Trained newly joined developers and helped them settle into the team comfortably.
- Proactively participated in the Stories planning, Sprint planning, and Backlog refinements. Contributed from my side to decision-making within the team by openly offering opinions and suggestions on story refinements and estimating the story points.

System Engineer

Mar 2020 – Oct 2021

TATA Consultancy Services Hyderabad, IN

- Developed backend code using Java, SpringBoot, Spring webflux for a trade-in platform.
- Used reactive programming to make the application reactive and responsive.
- Testing the code and APIs using Postman.
- Participating in User Story creation backlog refinement and grooming calls.
- Used JIRA for user stories, defects, and task tracking.
- Got exposure to the Redis database, Git CI/CD, and Docker containers. Directly interacting and working along with VERIZON clients on a daily basis.

Associate System Engineer

Feb 2019 – Feb 2020

TATA Consultancy Services Hyderabad, IN

- Worked on the enhancement of the Integration layer which acts as a bridge between Clarity (OSS tool) and the Inventory databases and other systems.
- Used Java code to develop backend code for FTTH (Fiber To The Home) operations.
- Developing readable reusable code for different modules using Java and SQL at the backend by understanding the client's requirements.
- Handling and resolving production issues on time.
- Giving technical and functional sessions to new joiners.
- Updating daily status to supervisors.

ACHIEVEMENTS

- I received the "On the Spot Award" and "Applause Award" for my contribution to the BSNL project.
